The Colony of Queensland comprises the north-eastern portion of the Continent of Australia—its northern extremity on the mainland is Cape York, and its southern (on the coast) Point Danger. The one hundred and thirty-eighth degree of longitude is its boundary on the west.

The Area of the Colony is 668,497 square miles, and its seaboard extends 2,250 miles.

The Colony is divided into sixty-one Electorates, fifty Districts each returning one member, and eleven Districts each returning two members. It has thirty Municipal Boroughs, six Municipal Shires, and contains upwards of two hundred small Towns or Townships. There are also Divisional Boards charged with the construction and maintenance of public highways and other necessary public works within their Divisions.

From the returns of the Census of 1901, it appears that, out of the entire population, 330,144 were Australasian born (of whom 289,531 were born in the State, including 6,670 civilised aborigines); 68,589 were born in England and Wales, 37,636 in Ireland, 19,934 in Scotland, and 13,163 in Germany.

There were only 4,625 persons returned as suffering from sickness and accident, being at the rate of 9·19 in every 1,000 persons.

The following are the rates of increase during the intervals between each Census:—

* Excess of departures over arrivals.

† Since 1866, increasing areas of land have been alienated by private sale or selection. The aggregate area and amount received for land alienated in fee-simple to the end of 1883 was 6,911,577 acres; £4,518,224.

** The numbers of letters and newspapers have been revised to correspond with an amended Return furnished by the Postal Department.

§ The figures from 1866 include telegrams sent and received; previous to that year no record was kept of messages received from places beyond the Colony.

¶ From 1883 number and tonnage of vessels calling at more than one port in Queensland during same voyage only counted once.

†† The total yield of gold to end of 1877 has been estimated by the Mines Department at 2,646,916 oz., which is 999,905 oz. more than the quantity shown as sent by escort during the same period: the amount sent by escort was always known to be short of the actual production, and the discrepancy increased as railways to the interior were completed, but prior to 1878 there were no other means of forming an estimate.

§ Now divided into White, Yellow, Ration.

‡ Live Stock Borderwise included for the first time.

NOTE.—The amount actually realised bears but a small proportion to the amount sought to be recovered; but it must be borne in mind that in many cases the defendant, on a levy being made, becomes insolvent, and any property seized passes to the Official Trustee for the benefit of the Creditors, and consequently no sale by the Sheriff takes place. Many also of these writs of *fieri facias* were for large amounts, the suitors holding mortgages over and being in possession of the property seized, and were merely lodged for the purpose of obtaining the Sheriff's title for the conveyance of the interest, the purchase money being nominal.
